

Aloha Kāua,

Finding out that you or a loved one has been infected with COVID-19 can be a frightening and stressful experience.

You may be worried about getting severely ill, infecting others in your household and community, being criticized or ostracized, temporarily losing your income due to the need to isolate, and a myriad of other concerns.

Perhaps you're unsure how you will be able to get the supplies you need and how to safely isolate and care for yourself and/or your loved one(s) during isolation.

You may have others in your household, including keiki and kupuna, who are not infected and you're afraid they may also get COVID-19 if you isolate at home.

Please be reassured that you are not alone and that there is support to help you navigate this challenging situation while caring for yourself, your 'ohana, and your community.

## ISOLATION/QUARANTINE

All positive cases are required to isolate for 10 days and those exposed to COVID-19 are required to quarantine for 10 days. Staying at home prevents the spread of COVID-19 in East Maui.

If you have others in your household who are not infected by COVID-19, consider isolating the infected family member(s) at our Community COVID-19 Kīpuka.

**Isolation accommodations in Hāna may be available at no cost to your `ohana.** Please inquire with one of our COVID-19 community advocates listed below or any of the individuals listed on the back of this brochure for more information.

### COMMUNITY ADVOCATES

**Leina`ala Perry**

hanaleinaala@yahoo.com  
(808) 214-0362

**Claire Kamalu Carroll**

clairekamalucarroll@gmail.com  
(808) 264-0139

## PREPARED MEALS

Prepared meals, (such as family dinners) may be available for you and your `ohana for a 7-day period if you are in isolation and/or quarantine due to COVID-19.

Please let your advocate know if this is something you need. You will need to provide the number of adults, teens, and children in your household as well as any dietary restrictions.

Your advocate will utilize a contactless delivery system and ask that you prepare an outdoor—or semi-outdoor area (such as a table in your garage)—near your home where she can leave your meals.

For the safety of our advocates, we ask that family members remain in their homes during delivery and all communication occur via text, email, or phone calls. Advocates will follow all CDC safety guidelines.

## COVID-19 SUPPLIES

A limited number of COVID-19 Kits are available to help you more safely isolate at home. These kits may include the following items:

- Disposable Masks
- Reusable Cotton Masks
- Nitrile Gloves
- Sanitizing Clorox Wipes
- Clorox Bleach Sanitizer Spray
- Hand Sanitizer
- Infrared Thermometer

Hana Store vouchers may also be available and your advocate may be able to pick up and deliver other needed supplies such as medication, household items, groceries, etc.

There is a team working together to help keep East Maui safe during this pandemic. Please don't hesitate to talk to your advocate about your questions, concerns, or needs and they can reach out to our team of doctors, nonprofits, healthcare providers, first responders, and others to get you the help you need.

**All services are strictly confidential. Your information will not be shared without your permission.**
